 Entered at the postoffice as matter of the second class.

Nice quiet little fight being made on District Attorney Cox.

Shall it be Gray or Webb? That's the question that is agitating the local Democracy.

If Fred DeBois is not sent to the Senate from Idaho then indeed are her people ungrateful.

The Democracy is a little cut up about county officers, and there's a heap of trouble ahead.

Waste of water in a section like this is criminal. Negligence in this respect should be made a crime.

The Tombstone Prospector hit it the first time: "What Arizona needs is more muscle and fewer statesmen."

Reason has gained a victory and the senseless fights on Mr. Masten and the roadhouse have ceased.

The next Republican Territorial Convention will be the largest, most harmonious and most enthusiastic party has ever held.

Perfect harmony now prevails in the Republican party in Arizona, and now the Zulickites and anti-Zulickites are beginning to row. More power to them.

Chief Czarnosky had made splendid preparations for the fighting of fire yesterday. The way to prevent conflagrations is to be prepared for them is evidently the chief's theory and he is quite right.

Phoenix did honor to itself in its splendid celebration of the Fourth. The day was almost universally observed as a holiday, the decorations were general and elaborate and the parade in every way creditable.

Says the Los Angeles Herald: "It would make amusing reading if one should really tell the people of the sixth congressional district what made the Republicans nominate Vandever for Congress in 1876 and renominate him in 1888." That is an easy one; principally to defeat Joe Lynch.

So says the Silver Belt: "Inasmuch as opposition journals are trying to saddle the Democratic party with Zulick's acts, while Governor, it is proper to state that the party of which he claims to be an active member twice, in Territorial convention, repudiated him; hence it was the party refused to be handicapped by shouldering his objectionable acts. What the party wants and must have in the next canvass in order to win, is a ticket free from all taint of Zulickism. Those who played second fiddle to him should not be given a place on the ticket. Bolters desirous of a recognition should only be reinstated upon proof of repentance." To which the Tucson Star responds: "That is so."

We agree with the Los Angeles Times that there are scarcely any bounds to the possible future population of a city surrounded by land which can be made to yield from \$500 to \$1000 an acre, in berries, fruits and vegetables—five acres of which land, intelligently cultivated, will support a family in comfort—a city, moreover, which is capable of being made a Mecca for health-seekers; which has some of the richest mining sections of the world tributary to it, and whose location, between the ocean and the lowest passes across the mountains, invites the commerce of the world. Here is a case where the imagination may safely be given free play with the assurance that in years to come, those who witness the stranger than fiction—that the realities are greater than those conceived in our most sanguine dreams. Let us realize our opportunities in this chosen land and live up to them.

On June 28 the President approved the funding act for the Territory of Arizona. The bill passed just as it was drawn by Governor Wolfley, with the exception of the limit of the bond, which is fixed at twenty years instead of fifty. It will be remembered that Delegate Smith endeavored to kill the bill by having the life of the bonds shortened to ten years, and it passed the House in that shape. By hard work Governor Wolfley induced the Senate to restore the fifty year limit. When the bill was returned to the House for concurrence Delegate Smith again antagonized the fifty year scheme and a conference committee was appointed. This committee compromised on bonds of a twenty year limit.

This interference of Marcus A. Smith, and his unpatriotic efforts to kill the bill, will cost the Territory at least one-half of one per cent more interest on the bonds than it would have cost had the bonds been made payable after fifty years. Any banker or moneyed man will say that the longer the time or life of a bond the better it will sell. For that reason the interference of Delegate Smith has added at least one-half of one per cent on three millions of dollars, or fifteen thousand dollars a year to the debt of Arizona. Whether he did so through ignorance or partisan jealousy of Governor Wolfley is immaterial. The added debt is there just the same and that we have Mr. Smith to thank for.

The true merits of this bill will grow

on the people of Arizona year by year, as the interest on the debt is reduced from seven, eight or ten per cent, to five per cent or less. As we have said before, few persons probably understand the immediate relief this act will give to the people. There are outstanding about \$300,000 in warrants that bear 10 per cent interest. This includes Territorial, County, City and School Districts. These will be at once funded in bonds bearing 5 per cent interest, thus making a saving of 5 per cent, within the next year on \$300,000 or \$300,000. The average tax, Territorial, County, etc., is fully 3 per cent, on about \$300,000,000 of valuation, equal to \$900,000, nearly all of which is paid out annually in warrants bearing 10 per cent interest.

The funding bill places us on a cash basis, beginning with January 1, 1891. That is, all debts for 1890 and prior years will be funded, and the taxes assessed and paid in 1891 will, every dollar of it be available for the year 1891. By paying cash instead of warrants there will be annually a saving of 10 per cent, on \$900,000 or \$90,000—less 5 per cent, on the \$900,000 funding bonds issued to take up warrants equal to \$300,000—leaving a difference annually of \$60,000.

The purchasing power of the \$900,000 of warrants issued annually is not more than 95 cents on the dollar, which will make an annual difference to the people to whom the warrants are issued of \$45,000.

There are about \$500,000 of bonds, Territorial and others, that can be funded at once at a saving of fully 2 per cent, or \$10,000 annually, and about \$2,500,000 that can all be funded within about five years at a saving of fully 3 per cent, or \$75,000. The results for the first year as thus given can be tabulated as follows:

Saving on \$900,000 outstanding warrants	\$30,000
Saving on \$900,000 annual warrants	45,000
Saving on \$90,000 difference for cash	4,500
Saving on \$900,000 difference in interest on bond	10,000
<b>Saving first year</b>	<b>\$149,500</b>

For the second, third and fourth years, the saving will be \$115,000 a year. In the fifth year there will be added to this the saving of 3 per cent, on \$2,500,000 funded, or \$75,000, making a total saving of \$190,000 annually on and after the fifth year.

The credit of this great saving to the people of the Territory is due to Governor Wolfley alone, from its inception to its finally becoming a law, and that too, against the active opposition of the Democratic Delegate, Marcus A. Smith, as shown by the Congressional Record.

The Governor will, as soon as a certified copy of this law is received, call the Board of Loan Commissioners and at once take active steps to fund all outstanding warrants, Territorial, county, city and school district, and all other debts or bonds that can be legally called in.

Says the Tombstone Prospector: "The kick against Governor Wolfley by the mossbacks of his party is nothing new. In every State and Territory in the Union may be witnessed the same antics. It is not a bad idea either, for if it does not start the blood into circulation it has started a paper into circulation, of which Arizona has cause to be proud. If the Herald and Citizen have the nightmare over the result of their free lunch, they have only to blame themselves for it."

## A FEW PLAIN FACTS.

Under the above heading the Gazette publishes a column editorial that should be read by everyone interested in the welfare of this valley, yes, of all Southern Arizona. The Republican joins with the Gazette in saying that "the time has arrived when the welfare of the valley must be put in advance of any personal desires of individuals." In orchards and vineyards lie the true wealth or advancement of all Southern Arizona, because of land we have thousands of acres, and to spare, but the supply is very limited, and will continue to be limited until such time as exceedingly costly reservoirs shall be built and that not only takes vast sums of money, but even if the money was now ready would take two or three years to construct. Orchards and vineyards not only take the smallest quantity of water, but the profits per acre are also far greater, averaging from \$500 to \$1000 per acre. While it is a low estimate to say that one acre of alfalfa requires as much water as five acres of matured orchards or vines—at least as cultivated in this valley, while the gross yield from an acre of alfalfa is not to exceed ten tons, which at \$5 is only \$50 as the gross yield a year, or less than one-tenth of the average profits from orchard or vineyard; or, with the same quantity of water, the yield would be five times this or fifty times more used in an orchard or vineyard than on an alfalfa field. These figures are exceedingly conservative—as few farmers raise ten tons of alfalfa to the acre or get \$5 a ton for what they do raise—and the number of acres of matured fruits or vines that can be successfully cultivated with the water required for one acre of alfalfa is even more than five to one, and \$500 for the yield of an acre of orchard or vineyard is much below the average.

It is claimed by some that alfalfa thoroughly flooded in the winter or early spring will live through the year and furnish two or three cuttings. This, if true—and it is given on good authority—is exceedingly important, and a law should be passed or other means taken to limit water per acre to the amount necessary for fruit, or thus forcing all who cultivate alfalfa to flood it before the water begins to get scarce in the spring, and not be allowed any increase thereafter until water is again abundant. No more important question than this can receive the attention of our farmers. This of course applies to old and matured fields of alfalfa, the roots of which it is well known grow to a very great depth. Exceptions to the law or regulation could or should be made in the limited standing of young fields, for should this prove true could then be no objection to alfalfa cultivated in this manner as there is always an over abundance of water in the late winter and early spring. Unless we are misinformed, John B. Montgomery has a field of alfalfa that has not been watered since the winter, that has given good crops and is doing exceedingly well.

## DOING GOOD WORK.

Fruit of Dr. MacLennan's Labors in Phoenix.

THE MOST STUBBORN DISEASES YIELD.

Spontaneous Testimonials from Well Known Citizens of the Salt River Valley.

A reporter overheard, on Washington street, yesterday, a conversation that interested him greatly. Peter Rasmussen, a well-known farmer located a few miles below Phoenix, was replying to the congratulation of a friend upon his very apparent improvement in health.

"Yes," said Mr. Rasmussen, "my condition of comparative health is indeed wonderful, when it is considered that a few weeks ago I was but a physical wreck. With kindey and liver deranged to such a degree that physicians had practically given me up as incurable, I lost all hope and made my will with the full expectation of dying within a short time. While I was in this condition of mind and body, Joe Gilmore came to me and counseled that I visit Dr. MacLennan. I expressed the opinion that my case was beyond the reach of human skill, but he persisted and fairly packed me off to see the Doctor, telling me on the way of the almost marvelous manner in which he himself had been cured. The first treatment at the hands of Dr. MacLennan gave me strength and hope and today I am well. I cannot speak in too high terms of the physician who has done all this for me. His work is marvelous and every day I hear of cases of sickness equal to mine in severity that have yielded to his skill."

GILMORE'S EVIDENCE.  
 Pursuing the subject the reporter called around on Mr. Gilmore. He is a member of the thriving firm of Gilmore Bros., blacksmiths, whose extensive shops occupy the southwest corner of Center and Adams.

In response to a query relative to his recovery from sickness, he emphatically said: "I owe my restoration to health to the treatment I have received from Dr. MacLennan. For two years I had suffered from Laryngitis until my voice was lost to that extent that I could not speak above a whisper, my general health was undermined, and I was going fast on a decline. I tried everything—doctors, the Hot Springs and all—and nothing seemed of any use. Shortly after Doctor MacLennan came here, I placed myself under his care. Today, I feel better than for years past, my throat trouble has disappeared, and I can yell like a cowboy."

Continuing his investigation, the reporter called on the Doctor himself, at his parlors on the second floor of the Monihon building. The reception room was found crowded with ladies, while on the balcony were seated a number of men awaiting their turns. The reporter retired to await a more favorable time for securing an interview with the Doctor, and, meanwhile, engaged in conversation with Hon. J. D. Monihon, Chairman of the Board of the Insane Asylum Directors, whose office adjoins that of the Doctor. "There seems to be a continuous stream of people," said Mr. Monihon, "pouring into the next room all day long. They are afflicted with almost every ill that flesh is heir to; but I hear from them as they go away, nothing but the highest praise for Dr. MacLennan, and confident hopes for complete recovery. I know, personally, of a number of extraordinary cures he has made, that show him to be a most able physician."

A CASE OF PARALYSIS.  
 When opportunity offered admittance was gained to the operating room, where a cordial greeting was received from the Doctor. He was working upon a patient under treatment for paralysis. The mode of treatment seemed to be a combination of electricity, massage and medicinal applications. The gentleman being operated upon is named Llerence Wentling. During a short absence of the Doctor he grew enthusiastic in his praise of the treatment received.

"Just four years and three months ago," he said, "I was running on Lynx creek, near Prescott. One morning on arising I was stricken as quickly as though a bullet had hit me with paralysis in the right side, arm and leg. I was taken to Prescott and have since spent in Physician's fees alone over \$700. I was at Castle Creek Hot Springs when I heard that Dr. MacLennan was in Phoenix and took the earliest opportunity of coming down and consulting him. I have been under his care for two weeks and see—he raised his arm above his head—"I can use my arm without trouble and am able to walk without crutches. I am deeply grateful for the good that has been done me, when recovery seemed out of the question."

SPINAL TROUBLE CURED.  
 Another patient whose treatment was witnessed was G. K. Smith, the cleaner and dyer, whose shop is located on Cortez street, opposite the Monihon block. He has been troubled for several years with what the Doctors called Sciatica and for five months past has been unable to do any work at all. He placed himself under Dr. MacLennan's care about ten days ago, when it was discovered that his ailment was a curvature of the spine, caused by the wasting away of the tissue between the vertebrae of the lower portion of the spinal column. He is now much improved. His back is regaining its suppleness, showing that the natural oil is once more being secreted and he confidently expects an entire cure before the Doctor leaves.

Dr. MacLennan is a man of fine physique, with every indication of strong natural magnetic power. He describes his success in the treatment of the chronic diseases that are brought to him to the improved methods he uses and to the superior apparatus he brings to his aid. Those who need his services should not delay seeing him, for Phoenix cannot hope to long retain him.

R. G. ANDRE.

Saddle &amp; Harness Maker

PHOENIX - ARIZONA.

Does all Competition in quality of work or price. Makes harness and sells out two sets of foreign manufacture. The best stock saddles made in the Southwest, with honest work, Good Leather and a Full Knowledge of the Needs of Cattleman.

## ARTICLES OF INCORPORATION.

THE FARMERS' IRRIGATION COMPANY.

Know all men by these presents, that we, Daniel E. Keating, Horatio H. Wharton and Cecil B. Ayton, desiring to incorporate ourselves under the provisions of the laws of the Territory of Arizona, and especially an Act of the Legislative Assembly, thereof, entitled "An Act Concerning Corporations," approved March 9th, 1887, for the purpose of engaging in the enterprise hereinafter described, do make, subscribe and acknowledge in duplicate these Articles of Incorporation, and declare:

I. The name of this corporation and by which it shall hereafter be known is "The Farmers' Irrigation Company," and its principal place for transacting its business shall be the City of Phoenix, county of Maricopa, Territory of Arizona.

II. This corporation is organized for the purpose of constructing, maintaining and operating canals and reservoirs in the county of Maricopa, Territory of Arizona, and to divert and carry water from the Salt River for agricultural, domestic and manufacturing purposes, to buy, sell, lease and trade in lands, improved or unimproved, and in every kind of personal and real estate, and to take and hold securities thereon and upon any property whatever, to buy, sell, lease and trade in water rights, shares in water canals or in any and all corporations.

III. The time of the existence of this corporation shall be fifty (50) years from and after the date of its incorporation.

IV. The affairs of this corporation shall be conducted by a board of seven directors who shall be elected annually on the first day of May by the stockholders and shall hold office for one year and until their successors have been duly elected and qualified, but the names of those who shall be directors and serve as such officers until the first day of May, 1891, and until the election of their successors and their qualifications, are Richard L. Hattersley, George W. Brown, Walter Thompson, Wm. C. Thairwell, D. E. Keating, Horatio H. Wharton, Cecil B. Ayton.

V. The capital stock of this corporation shall be one hundred thousand (\$100,000.00) dollars divided into ten thousand (10,000) shares of the par value of ten (\$10.00) dollars each, and said capital stock shall be paid on call of the board of directors and shall be non-assessable.

VI. The highest amount of indebtedness or liability to which this corporation shall at any time subject itself shall be fifty thousand (\$50,000.00) dollars.

VII. The stockholders and their private property shall be exempt from the corporate debts of this corporation.

VIII. The board of directors of this corporation shall have the power to make all needful by-laws and rules and regulations for the management of the affairs of this corporation and its officers.

IX. No person shall be eligible to the office of director unless he be a stockholder in the corporation, and upon ceasing to be a stockholder he shall cease to be a director.

Witness our hands and seals this 19th day of June, A. D., 1890.  
 DANIEL E. KEATING, [Seal]  
 HORATIO H. WHARTON, [Seal]  
 CECIL B. AYTON, [Seal]

Before me, Joseph Campbell, a Notary Public in and for Maricopa county, A. T., on this day personally appeared DANIEL E. KEATING and HORATIO H. WHARTON, personally known to me to be the persons whose names are subscribed to the foregoing instrument and acknowledged to me that they executed the same for the purpose and consideration therein expressed. Given under my hand and seal of office this 19th day of June, A. D., 1890.

## WANTS.

The quickest returns for the least money are to be obtained from the REPUBLICAN'S Want Columns. Situations Wanted, Help Wanted, For Rent, For Sale, To Let, To Exchange, one cent a word each insertion, or by the month at five cents per line a day.

PRINTERS WANTED—TWO OR THREE good Union printers can find work at THE ARIZONA REPUBLICAN office.

## LOST.

Lost—Left by the owner at some place by the owner where she called on Monday, May 19, a black silk parasol, with gold handle, engraved "Addie H. Kinney." Finder will please leave same at this office.

For sale—Two fine steam boilers. One is almost new, 44 inches by 15 feet, rated at 35 horse-power. The other is in good condition, 44 inches by 12 feet, rated at 30 horse-power. As I have no further use for these boilers, they being too small for my use, I offer them for sale complete at a rare bargain. They may be seen at the Phoenix Ice Works, east of depot. PIERREPOINT MINOR.

## Professional Cards.

BAKER & CAMPBELL, ATTORNEYS AT LAW. Office: Over National Bank.

H. F. ROBINSON, SURVEYOR AND DRAFTSMAN. All work done promptly, correctly and neatly. Office with the Arizona Canal Co.

CLARK HOWARD, ATTORNEY AT LAW. Office in Porter block, Phoenix, A. T.

## Miscellaneous.

GO TO THE FASHION BARBER SHOP FOR shaving, hair cutting, shampooing, bathing, hair dressing. Ladies work done at the shop or residence. Prices to suit the times. Opposite the Opera House. FRANK SHIPLEY, proprietor.

COMMERCIAL HOTEL, CORNER CENTER and Jefferson streets. Only house employing white help throughout. HERRICK & LUBES, proprietors.

WM. LIMBROCK, BOOT AND SHOE MAKER.

BEST FRENCH KID LADIES SHOES, HAND sewed, from \$3 to \$7. Men's Best French Calf Boots, hand sewed, from \$4 to \$12; pegged from \$5 to \$10. Fit guaranteed. Repairing of all kinds neatly and promptly done. Shop opposite courthouse.

Maricopa and Phoenix Railroad.

New Time-Table. (In effect June 15, 1890.)

LEAVE	IN	ARRIVE
Phoenix	Phoenix	Phoenix
